

  
**Christine Gardner**

Creating little pieces of happy

**Spring/Summer Catalogue 2023**

# Hello!

It all started 7 years ago when on maternity leave, Christine searched for the ideal Christening invite that couldn't be found! She designed her own and that was that.

Seven years later, Christine Gardner Design is a full time career after quitting corporate life and living the dream of running her own stationery and homewares business. So now she spends her days designing little pieces of happy to brighten peoples days, uplift, and spread joy.

This includes modern floral and contemporary themed stationery designs all printed in the UK working with excellent British manufacturers using FSC-certified paper stocks and the best materials.

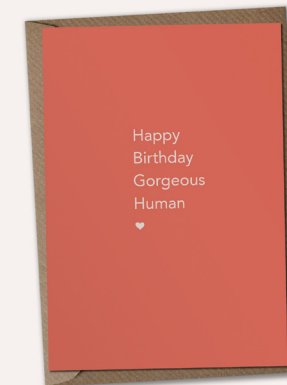

Designs are often inspired by the landscape and nature that surrounds the studio in West Sussex but are also inspired by family and the things we like, enjoy, and do! Work is created by hand with pens and pencils and then moved into a digital format where pattern layouts, colour swatches and final designs come together.

We hope you enjoy our catalogue and that you love our cards and wrap as much as we do!

# Thought Full

ALL NEW  
Range  
for 2023!

A new range inspired by thoughts and words. Sometimes it's hard to find the words to write to someone you care about but these cards sum up lots of thoughts and feelings, and can be used as prompts to help you write the perfect message.

A6 cards with Kraft envelopes.

## Sustainability & Environment

All companies, large and small, should be doing their bit for the environment. This is what we are doing for a more sustainable future...

### Going Naked!

We have unwrapped all of our single cards and are nesting our envelopes in the card for all online orders and card clasp for wholesale. Your cards are still safe as they come wrapped in a board backed envelope and thank you postcard. We wrap our card sets in twine to keep them secure.

### Our cards are fully recyclable

All of our card designs will have just a 30% surface area or below covered in foil which ensures the card can still be recycled. We still want to offer a high end and celebratory product (and we love a bit of gold!) so it's fantastic news that we don't have to sacrifice on our design and finishes to still deliver you a recyclable product.

### Our wrap is fully recyclable

Our wrap is uncoated and has no shiny plastic finish or glitter on it so is 100% recyclable. We love this almost textured look to our wrap which is thicker, more luxurious and compliments our designs.

## Good Times Birthday

A range inspired by good times and things we get joy from. These were created post lockdown when we could finally get creating again and happiness came through on each card. Celebrating birthdays, weddings, anniversaries and more these cards are full of joy, happiness and good times. Cards are finished in gold foil.

A6 cards with gold envelopes and 4 wrap sheet designs.
